***Drawings***

Formal drawings are now required. The drawings were noted as being informal by the applicants in a letter of 10/23/00.

***Allowable Subject Matter***

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show or fairly suggest one or more polymer actuators between a membrane and a frame and connected to each by threads, with which they are aligned. Likewise not shown nor fairly suggested are rolled polymer actuators wherein the Poisson ratio of the polymer can be tailored and where the polymer has electrodes on each major surface and wherein the electroded, electrostrictive polymer further has an upper material layer in order to form a bonded assembly, further with a cap affixed to each end of the roll.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
